Dear Ms. Shannon Knight

**Re: Product Licence Issuance - NPN 80028256**  
**Compendial - Adya Clarity**

The Natural Health Products Directorate (NHPD) has concluded that the product is in compliance pursuant to section 7 of the *Natural Health Products Regulations*. Please find enclosed a copy of the Product Licence hereby authorizing the sale of the product described therein.

Any labels used in the marketing of this product must reflect the information outlined on the product licence and must comply with the labelling requirements as per Part 5 of the *Natural Health Products Regulations*. Please note that you are responsible for ensuring that advertising claims on the label do not contravene Section 9 of the *Food and Drugs Act*. Additional information on acceptable advertising claims can be obtained from the "Consumer Advertising Guidelines for Marketed Health Products (for Nonprescription Drugs including Natural Health Products)" at [http://www.hc-sc.gc.ca/dhp-mps/advert-publicit/pol/guide-ldir\\_consom\\_consum\\_e.html#a.1](http://www.hc-sc.gc.ca/dhp-mps/advert-publicit/pol/guide-ldir_consom_consum_e.html#a.1). Section 87 (Labelling and Packaging), specifies the label text information that you are responsible for ensuring is translated into French.

Changes made in respect of a licensed product require the submission of an amendment, notification or a new product licence application as per sections 11, 12 and 13 of the *Natural Health Products Regulations*.

As per Part 6, Section 108 of the *Natural Health Product Regulations*, any Drug Identification Number (DIN) assigned to a product is no longer valid and will be cancelled once an Natural Product Number (NPN) has been issued. For those applications that have not been identified as a Transitional DIN, we recommend the applicant notify the Therapeutic Products Directorate that an NPN has been issued to avoid any administrative fees for DIN products.

As per the *Natural Health Product Regulations*, you are responsible for providing the NHPD with the Canadian site information prior to commencing the importation and/or sale of the natural health product. All information required is outlined in Part 1, Section 22 (1 & 2). For transitional DIN products that are currently on the market, this information is required within 30 days after the day on which the natural health product licence is issued. If this information has not already been provided to NHPD, please submit this information as a notification, as per section 12 (2) (b) of the *Natural Health Product Regulations*.

If you notice any discrepancies concerning the information on the licence, please submit a notice entitled "Request for Correction to the Product Licence" indicating the corrections to be made, within 60 days after the day on which the product licence is issued, to the Data Entry Homayoon Fatemizadeh, tel.: (613) 960-8042. The File Number (provided at the top right corner of the title page) and Product Number must be quoted on all future correspondence regarding this product.

Yours truly,

Homayoon Fatemizadeh  
Data Entry  
Natural Health Products Directorate
